One day, Evliya Çelebi falls into a sleep. In his dream, he is in Wuhan, China in an animal market. People here wear masks.

Evliya Çelebi learns that a disease called Corona started from a bat sold in this market and it is in the whole world now. Evliya Çelebi wonders what is happening in other countries. He starts a long journey.

Evliya Çelebi's next stop is Italy. Here, he goes to Bergamo. Although Bergamo is a small city that day, it is quite crowded. Evliya Çelebi is so worried. But soon he learns the reason for that crowd.

There is a UEFA Champions League match between Italian A.B. team and Spanish team FC Valencia. All the fans are in the city .A week later, sick people in Italy and Spain increases very much. Evliya Çelebi continues his travel because he is curious about the situation in other countries.

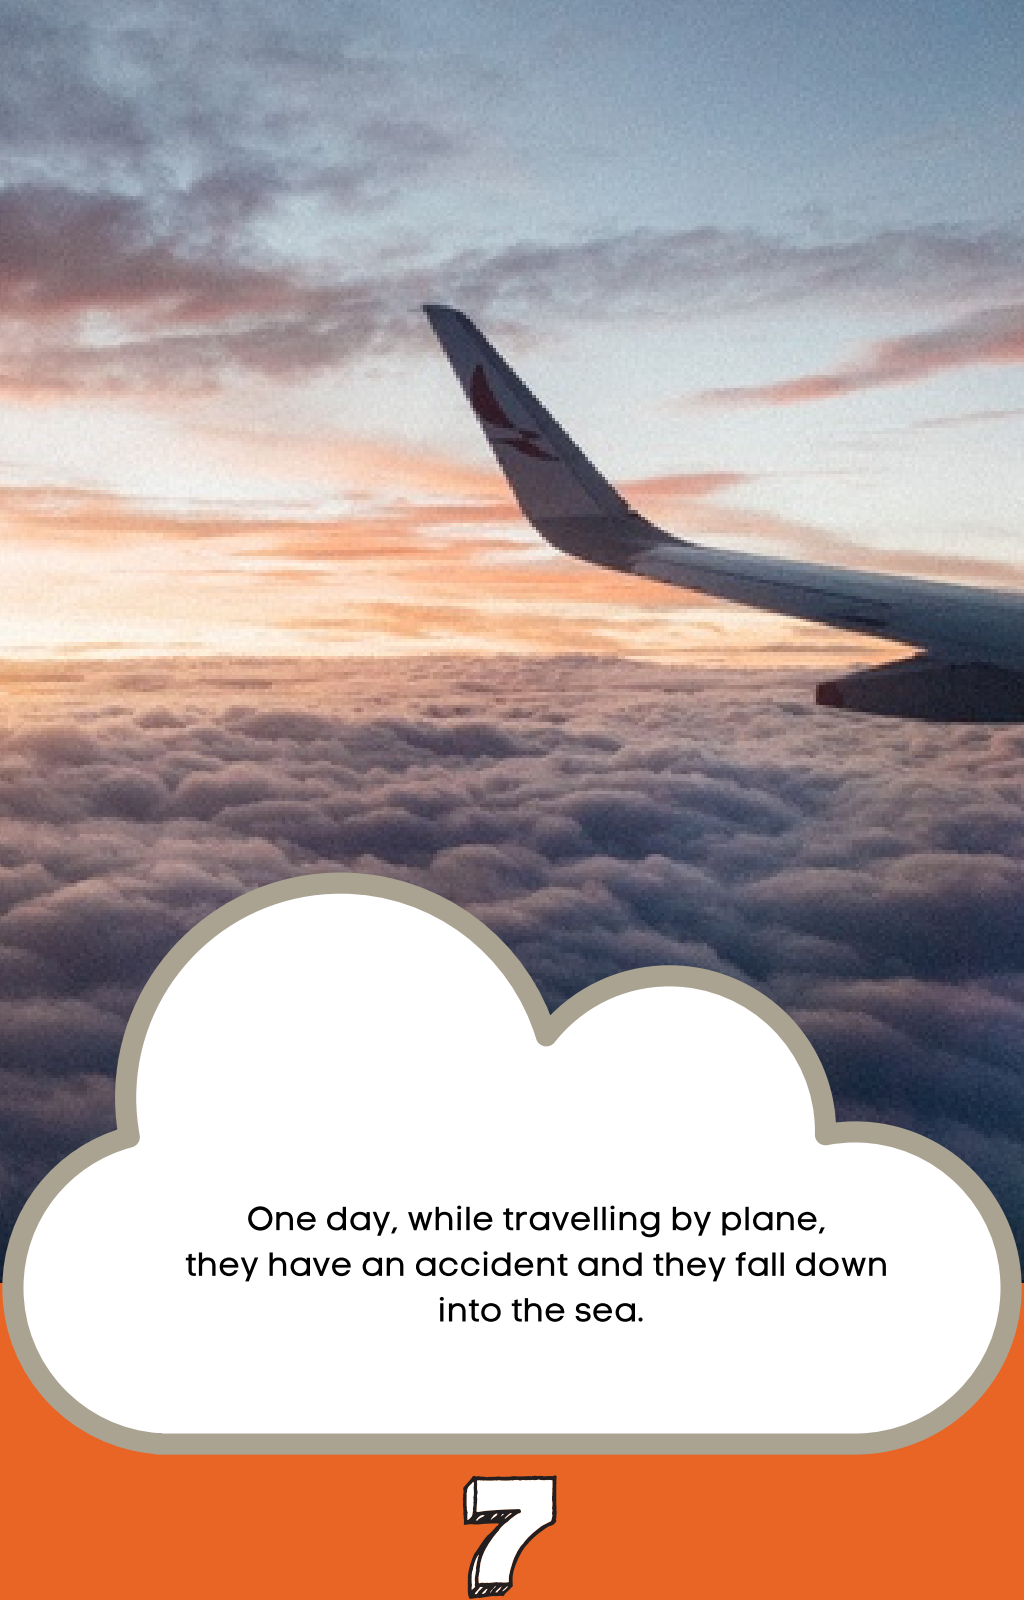

Evliya visits Spain ,Torremolinos.There  
is also Coronavirus.

There, he meets Antonio. Antonio is a doctor and he is very interested in curing this disease. With him, Evliya visits other countries. He wants to find a cure.

One day, while travelling by plane,  
they have an accident and they fall down  
into the sea.

7

They swim some hours and they arrive to a beautiful island. In this island people are so curious about nature. They also grow their own food and make their own medicine. They all appear to be really healthy and happy.

Evliya Çelebi takes magic herbs from the island and now he needs to find the magic water. Evliya Çelebi has an idea. But first, he needs to go to Romania. Antonio likes the island and he wants to stay there. So they say goodbye to each other.

# BORSEC

He climbs the snowy mountains and finds the magic water in Borsec,Romania.He has the magic herb,he has the magic water and now he needs a magic doctor.So, he decides to go to İstanbul to find the magic doctor there.

Evliya Çelebi gets on a plane to go to Istanbul.

Eric Yuan is sitting next to him on the plane. Eric is very friendly and they become friends. Yuan says he is the founder of Zoom programme and he knows a lot of people from all over the world. So he knows who can help him in Istanbul.

Yuan tells Evliya Çelebi to go to the hospital to find Doctor Adnan Keskin. Adnan is a very welcoming and warm person. They start to chat. Adnan talks about his own life story.

In fact, he had to quit his medical education 25 years ago, and only six months ago he completed his education and became a doctor. His biggest dream is to find a cure for Corona and heal people.

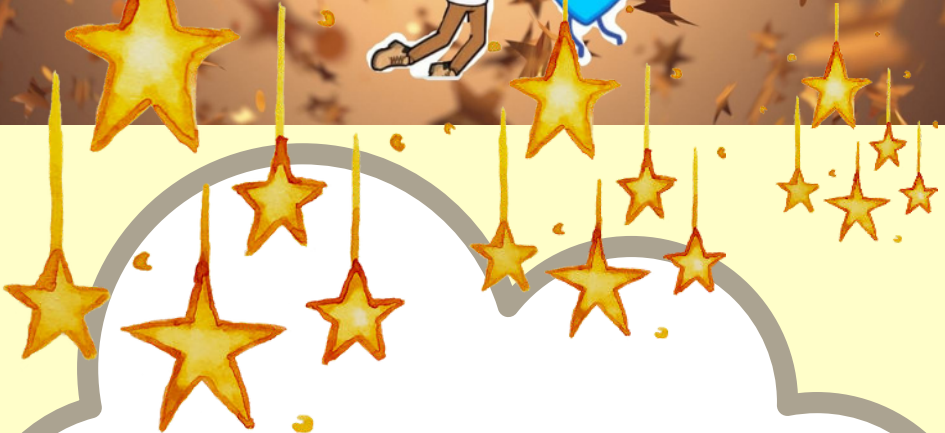

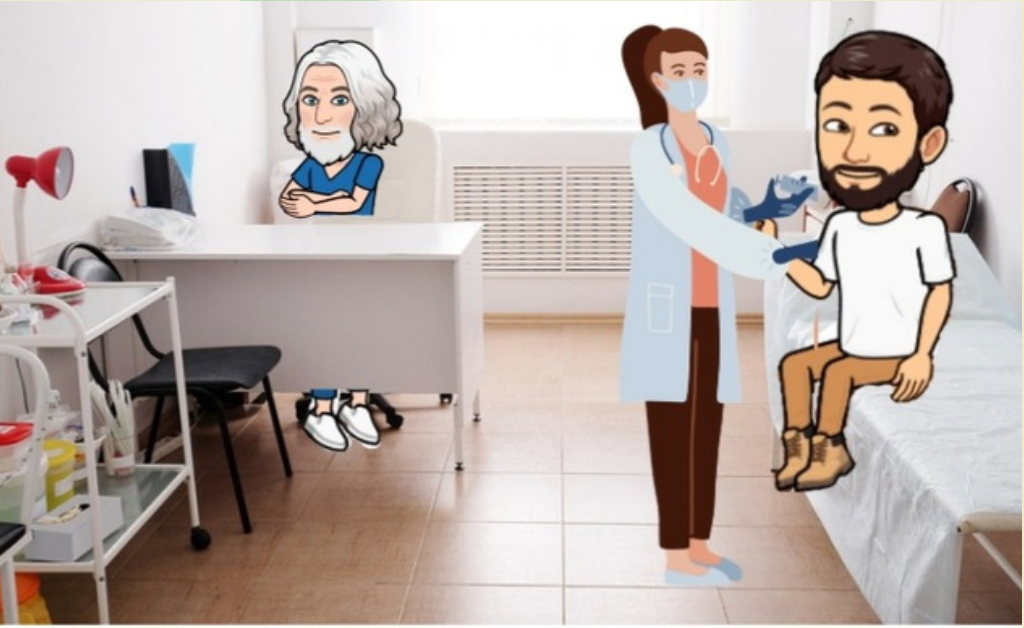

Evliya Çelebi says that he is a traveller and every part of the world is full of pain now. Only the one, who loves his job and people, will find a cure to this illness.

After hearing this, Dr.Adnan Çetin starts to work on the vaccine.

Evliya Çelebi gives the herbs and the magic water to Dr.Adnan and he works for days to find a cure for Corona.In the end ,he finds a magic vaccine.

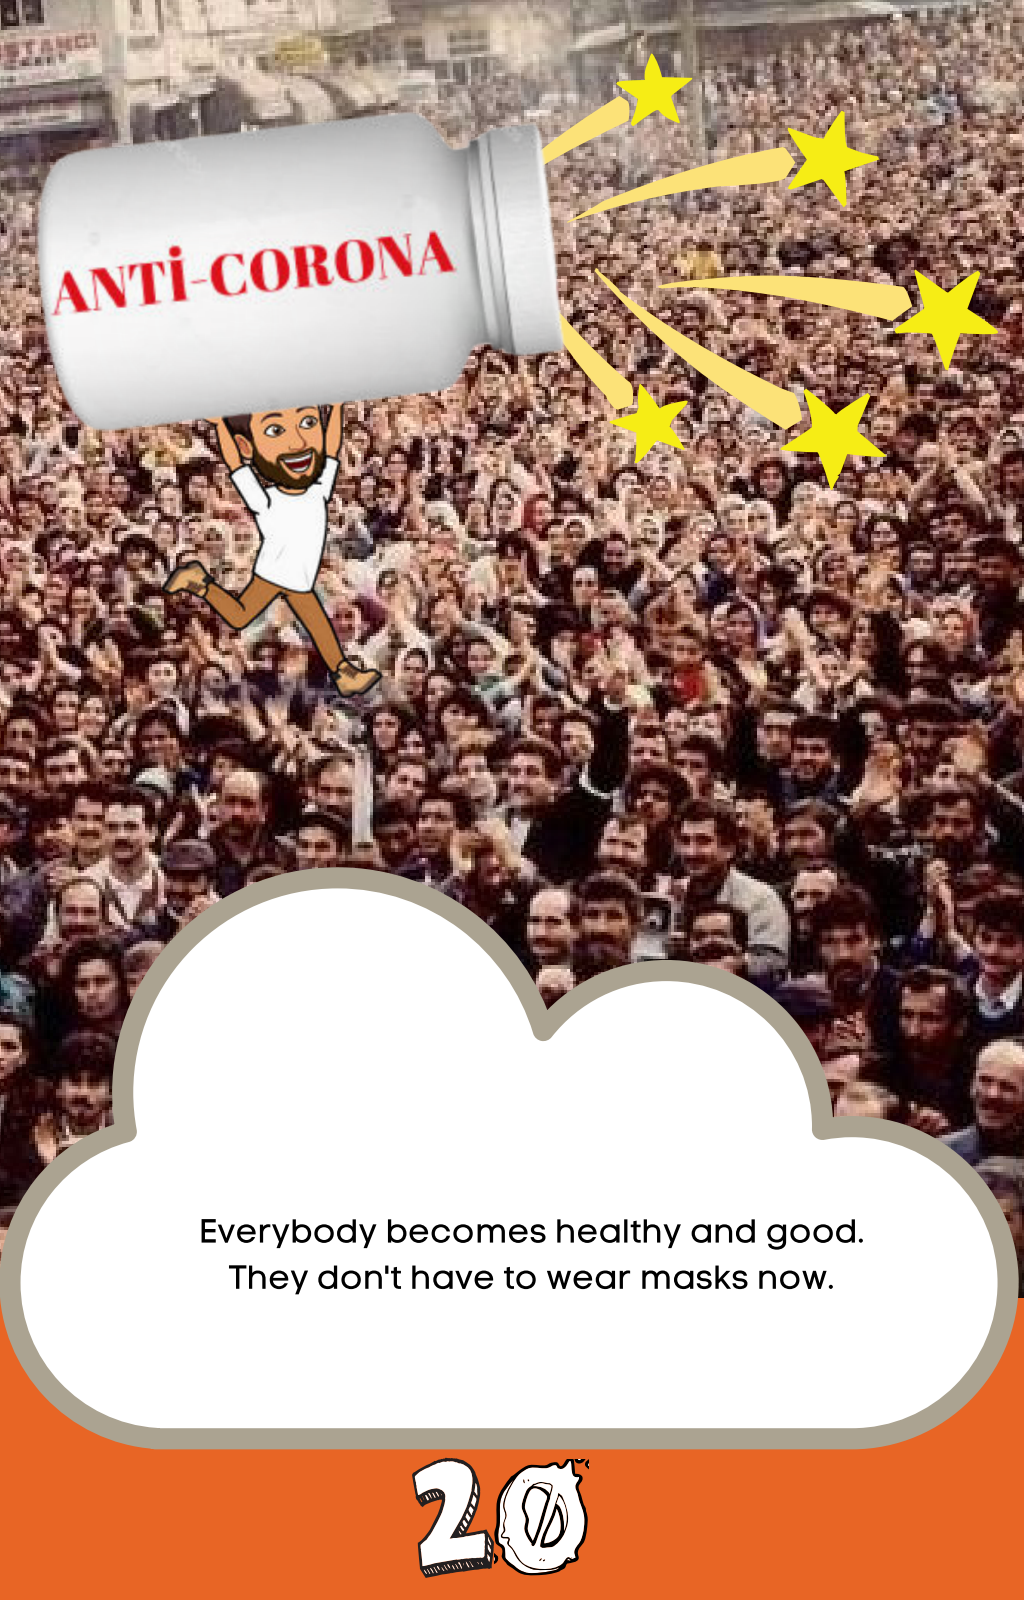

Evliya Çelebi is the first volunteer for the vaccine.  
But he is quite sure that it will work.  
There is a single side effect of the vaccine...

This magic vaccine not only heals people but also makes them good. So that our world will be saved from Corona and from all evil. Evliya Çelebi promises to spread this vaccine to all over the world.

Evliya Çelebi travels to all countries of the world and explains the formula so that they can produce it,  
Finally the pandemic disappears and the world becomes a happy place.

**ANTI-CORONA**

Everybody becomes healthy and good.  
They don't have to wear masks now.

Evliya Çelebi wakes up suddenly.  
He realises that it was just a dream.  
He thinks that everything seemed so real.

"Fortunately , everything is a dream," he says.

Then he thinks:  
"Wouldn't it be better if it was real?"

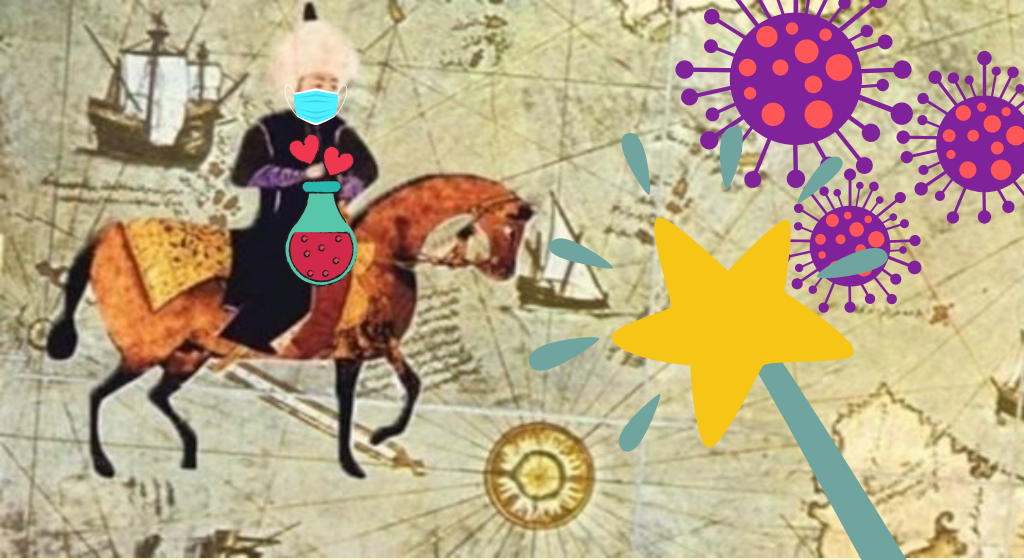

' Then the world would be a better place.'

Thanks to the vaccine, everybody  
feels better. The coronavirus finishes.  
Everybody is very happy  
all over the world.
